

MCR has been serving the local church communities of North Carolina since our company was founded in 1988. MCR is committed to helping each church we work with identify the best viable technology solutions for their unique needs. Our team of AV technicians then puts together our proposal of recommendations in line with your specific goals and technology priorities. MCR stands behind our work providing a full one year's warranty on all labor and workmanship along with honoring the manufacturer's warranty on each item we sell. We're in the business of building long term relationships and have been since 1988. Listed below are some of the churches we've partnered in recent years.
